Background 背景	LCSD required three completed months before the month of the competition date. Any late submission requires special approval from LCSD management. This bye-law hopes to reduce the late submission case. In Premier League 2023, special approval were requested three times in TKO. LCSD clearly indicated that "no late applications will be entertained".
Benefits 好處	This change alerts the member clubs in public venue should submit their LCS189 booking form on time. This can avoid unnecessary reschedule, reduce the overhead on admin office, and minimize the misunderstandings due to communications.
